Routledge Handbook of Japanese Foreign Policy

Edited by **Mary M. McCarthy**

From a nuclear North Korea and territorial disputes in the East China Sea, to global climate change and Asia-Pacific free trade agreements, Japan is at the center of some of the most challenging issues that the world faces today. Taking an interdisciplinary approach, comprising contributions from the fields of politics, sociology, history, and gender studies, this handbook creates a comprehensive and innovative overview of the field, investigating the widening variety of interests, sometimes competing, that constitute Japanese foreign policy.

Europe's Brexit: EU Perspectives on Britain's Vote to Leave

By **Tim Oliver**

This book offers an in-depth, ground-up analysis of the attitudes and opinions of the rest of Europe towards Brexit. Covering the period from David Cameron's attempt to negotiate EU reform prior to the Referendum and closing with the triggering of Article 50, the book will chart the individual member states' response to, coverage of, and political fall-out from, the UK's referendum process and result. The aim is to provide a backdrop for the future relations of those states with the UK and their likely positions during the negotiations.

The Routledge International Handbook of Island Studies: A World of Islands

Edited by **Godfrey Baldacchino**

This *International Handbook of Island Studies* is a global, research-based and pluridisciplinary overview of the study of islands. Its chapters deal with the contribution of islands to literature, social science and natural science, as well as other applied areas of inquiry. The collated expertise of interdisciplinary and international scholars offers unique insights: individual chapters dwell on geomorphology, zoology and evolutionary biology; the history, sociology, economics and politics of island communities; tourism, wellbeing and migration; as well as island branding, resilience and 'commoning'.

Pricing Lives: Guideposts for a Safer Society

280 pages 2018:05 Princeton U.P.

Hardback 9780691179216 ¥4,690

Like it or not, sometimes we need to put a monetary value on people's lives. In the past, government agencies used the financial "cost of death" to monetize the mortality risks of regulatory policies, but this method vastly undervalued life. *Pricing Lives* tells the story of how the government came to adopt an altogether different approach—the value of a statistical life, or VSL—and persuasively shows how its more widespread use could create a safer and more equitable society for everyone.

California Greenin': How the Golden State Became an Environmental Leader

(Princeton Studies in American Politics: Historical, International, and Comparative Perspectives)

272 pages 2018:05 Princeton U.P.

Hardback 9780691179551 ¥4,010

Over the course of its 150-year history, California has successfully protected its scenic wilderness areas, restricted coastal oil drilling, regulated automobile emissions, preserved coastal access, improved energy efficiency, and, most recently, addressed global climate change. How has this state, more than any other, enacted so many innovative and stringent environmental regulations over such a long period of time? The first comprehensive look at California's history of environmental leadership, *California Greenin'* shows why the Golden State has been at the forefront in setting new environmental standards, often leading the rest of the nation.

The Doreen Massey Reader

Economic Transformations

Edited by **Brett Christophers**, *et al.*

Doreen Massey (1944–2016) was one of the most influential geographers of the late-twentieth and early-twenty first centuries. Her ideas on space, region, identity, ethics and capital transformed the field itself, while also attracting a wide audience in sociology, planning, political economy, cultural studies, gender studies, and beyond. This collection of Massey's writings brings together for the first time her formative contributions, showcasing the continuing relevance of her ideas to current debates on financialization, globalization, immigration and nationalism, among other topics. With introductions and explanatory notes from the editors, the collection provides an unrivalled introduction to the range and depth of Massey's contributions, which are sure to remain an essential touchstone for social theory and critical geography for generations to come.

Doreen Massey: Critical Dialogues

Economic Transformations

Edited by **Marion Werner**, *et al.*

These specially commissioned essays, many from some of Doreen Massey's long-time interlocutors and collaborators, interrogate both the generative sources and the potential of Massey's remarkably wide-ranging and influential oeuvre. They provide readers with an unparalleled assessment of the political and social context that gave rise to many of Massey's key ideas and contributions—such as spatial divisions of labour, power-geometries, and a “global sense of place”—and how they subsequently travelled, and were translated and transformed, both within and outside of academia.

アイデンティティ・クライシス：
2016年大統領選挙とアメリカの価値のための闘い
Identity Crisis: The 2016 Presidential Campaign and the Battle for the Meaning of America

By **John Sides, et al.**

Identity Crisis takes readers from the bruising primaries to an election night whose outcome defied the predictions of the pollsters and pundits. The book shows how fundamental characteristics of the nation and its politics—the state of the economy, the Obama presidency, and the demographics of the political parties—combined with the candidates' personalities and rhetoric to produce one of the most unexpected presidencies in history. Early on, the fundamental characteristics predicted an extremely close election. *Identity Crisis* reveals how Trump's victory was foreshadowed by changes in the Democratic and Republican coalitions that were driven by people's racial and ethnic identities. The campaign then reinforced and exacerbated those cleavages as it focused on issues related to race, immigration, and religion. The result was an epic battle not just for the White House but about what America is and should be.

Peace on a Knife's Edge: The Inside Story of Roh Moo-hyun's North Korea Policy

(Shorenstein Asia-Pacific Research Center)

320 pages 2018:02 Brookings Inst. Pr.

Paperback 9781931368438 US\$28.95

Peace on a Knife's Edge is the translation of Lee's 2014 account of Roh's efforts to bring peace to the Korean Peninsula in the face of opposition at home from conservative forces and abroad from the Bush administration's hard stances of "tailored containment" and its declaration of the North as part of the "axis of evil." Lee's narrative will give American readers rare insights into critical moments of Roh's incumbency, including the tumultuous Six-Party Talks; the delicate process of negotiating the relocation and reduction of United States Forces Korea; Roh's pursuit of South Korea's "autonomous defense"; conflicts with Japan over history issues; and the North's first nuclear weapons test.

Envy in Politics

(*Princeton Studies in Political Behavior*)

248 pages 2018:04 Princeton U.P.

Hardback 9780691178653 ¥4,010

Why do governments underspend on policies that would make their constituents better off? Why do people participate in contentious politics when they could reap benefits if they were to abstain? In *Envy in Politics*, Gwyneth McClendon contends that if we want to understand these and other forms of puzzling political behavior, we should pay attention to envy, spite, and the pursuit of admiration—all manifestations of our desire to maintain or enhance our status within groups.

Direct democracy typically is lauded for putting power in the hands of the people. But is it really as democratic as it seems? To what extent, and in what circumstances, is it less about citizen power and more about external influences seeking to manipulate outcomes? Addressing these issues, Shauna Reilly draws on and compares case studies of referendums, recall elections, and initiatives around the world to investigate the complex realities of direct democracy in action.

The Opinion of Mankind: Sociability and the Theory of the State from Hobbes to Smith

280 pages 2018:02 Princeton U.P.

Hardback 9780691178882 ¥6,030

Recovering David Hume and Adam Smith's long-underappreciated contributions to the history of political thought, *The Opinion of Mankind* considers how, following Thomas Hobbes's epochal intervention in the mid-seventeenth century, subsequent thinkers grappled with explaining how the state came into being, what it fundamentally might be, and how it could claim rightful authority over those subject to its power.

The Declaration of Independence proclaims equality as a foundational American value. However, *Unequal and Unrepresented* finds that political voice in America is not only unequal but also unrepresentative. Those who are well educated and affluent carry megaphones. The less privileged speak in a whisper. Relying on three decades of research and an enormous wealth of information about politically individuals and organizations, the authors offer a concise synthesis and update of their groundbreaking work on political participation.

Nation Building presents bold new answers to an age-old question. Why is national integration achieved in some diverse countries, while others are destabilized by political inequality between ethnic groups, contentious politics, or even separatism and ethnic war? Traversing centuries and continents from early nineteenth-century Europe and Asia to Africa from the turn of the twenty-first century to today, Andreas Wimmer delves into the slow-moving forces that encourage political alliances to stretch across ethnic divides and build national unity.

Leftism Reinvented: Western Parties from Socialism to Neoliberalism

410 pages 2018:05 Harvard U.P.

Hardback 9780674971813 US\$39.95

Analyzing left-leaning parties in the U.S., Sweden, Germany, and the United Kingdom, Stephanie Mudge shows that the left lost voters' loyalty in part because of the changing worldview of party experts. Keynesian economists in the 1960s who spoke for managing the economy gave way in the 1980s to economists advocating the advancement of markets.

What impact have African actors had on perceptions of and responses to current international security challenges? Are there international peace and security norms with African roots? How can actors that lack the power and financial resources of Western states help to shape prevailing conceptions of appropriate behavior in international politics? Addressing these questions, the authors of *African Actors in International Security* identify and explore the diverse pathways by which African governments, IGOs, NGOs, and individuals can and do influence the normative structure of contemporary international relations.

Price of Prestige: Conspicuous Waste in International Relations

232 pages 2018:02 Univ. of Chicago Pr.

Hardback	9780226433202	¥6,030
-----------------	---------------	--------

In *The Price of Prestige*, Gilady shows how many seemingly wasteful government expenditures that appear to contradict the laws of demand actually follow the pattern for what are known as Veblen goods, or positional goods for which demand increases alongside price, even when cheaper substitutes are readily available. From flashy space programs to costly weapons systems a country does not need and cannot maintain to foreign aid programs that offer little benefit to recipients, these conspicuous and strategically timed expenditures are intended to instill awe in the observer through their wasteful might.

Empire by Invitation: William Walker and Manifest Destiny in Central America

330 pages 2018:04 Harvard U.P.

Hardback 9780674737495 US\$39.95

Michel Gobat traces the first U.S. overseas empire to William Walker, a believer in the nation's manifest destiny to spread not only westward but abroad. In the 1850s Walker and a band of expansionists migrated to Nicaragua to free the masses from allegedly despotic elites. But what began with promises of liberation devolved into a reign of terror.

International Relations of the Chinese Empire: Diplomacy, Trade and Administration in Imperial China 5 -volume set

2,584 pages 2018:05 I.B. Tauris

Hardback 9781784531331 £450.00

Coverage includes the central and provincial government of the Qing Empire, the fiscal position of the Chinese state, international trade, the position of foreigners in China's economy, opium imports, the Inspectorate of Customs, the railways, and an examination of the guild system that underpinned the organization of commerce in China. The three volumes of *International Relations of the Chinese Empire* analyse the history of China's relations with the West in the nineteenth century. Key issues include the increase in foreign control over China and the attempts of the Chinese government to respond, the rise of Japan in Asia, and the final demise of the Qing Empire. With a new introduction by leading contemporary scholar Professor Michael Dillon, the set forms essential reading for anyone seeking to understand economic and political relations between China and the West in the nineteenth century.

In this volume, Olivier Schmitt presents detailed case-study analysis of several US allies in the Gulf War, the Kosovo campaign, the Iraq War, and the war in Afghanistan. He also includes a broader comparative analysis of 204 junior partners in various interventions since the end of the Cold War. This analysis bridges a gap in previous studies about coalition warfare, while also contributing to policy debates about a recurring defense dilemma.

**A City Mismanaged:
Hong Kong's Struggle for Survival**

By **Leo F. Goodstadt**

A City Mismanaged traces the collapse of good governance in Hong Kong, explains its causes, and exposes the damaging impact on the community's quality of life. Individual chapters look at the most shocking examples of mismanagement: the government's refusal to implement the Basic Law in full; official reluctance to halt the large-scale dilapidation of private sector homes into accommodation unfit for habitation; and ministerial toleration of the rise of new slums. Mismanagement of economic relations with Mainland China is shown to have created severe business losses. This book offers a unique and very powerful account of Hong Kong's struggle to survive.

**Carving Up the Globe:
An Atlas of Diplomacy**

By **Malise Ruthven**

Where do you draw the line? In the context of geopolitics, much hinges on the answer to that question. For thousands of years, it has been the work of diplomats to draw the lines in ways that were most advantageous to their leaders, fellow citizens, and sometimes themselves. *Carving Up the Globe* offers vivid documentation of their handiwork. With hundreds of full-color maps and other images, this atlas illustrates treaties that have determined the political fates of millions. In rich detail, it chronicles everything from ancient Egyptian and Hittite accords to the first Sino-Tibetan peace in 783 CE, the Sykes-Picot Agreement of 1916, and the 2014 Minsk Protocol looming over the war in Ukraine.

Gulfization of the Arab World
Exeter Critical Gulf Series

Edited by **Marc Owen Jones, et al.**

From projecting ideology and influence, to maintaining a notion of 'Gulfness' through the selective exclusion or inclusion of certain beliefs, cultures and people, the notion of Gulfization is increasingly pertinent as Gulf countries occupy a greater political and economic role in wider Middle East politics. This volume discusses the notion of Gulfization, and examines how thoughts, ideologies, way of life and practises are transmitted, changed, and transduced inside and outside the Gulf.

Edited by **Julian E. Zelizer**

Barack Obama's election as the first African American president seemed to usher in a new era, and he took office in 2009 with great expectations. But by his second term, Republicans controlled Congress, and, after the 2016 presidential election, Obama's legacy and the health of the Democratic Party itself appeared in doubt. In *The Presidency of Barack Obama*, Julian Zelizer gathers leading American historians to put President Obama and his administration into political and historical context.

Small Wars, Big Data: The Information Revolution in Modern Conflict

400 pages 2018:06 Princeton U.P.

Hardback 9780691177076 ¥4,010

The authors show that a revolution in the study of conflict—enabled by vast data, rich qualitative evidence, and modern methods—yields new insights into terrorism, civil wars, and foreign interventions. Modern warfare is not about struggles over territory but over people; civilians—and the information they might choose to provide—can turn the tide at critical junctures.

The Military Balance 2018

By **The International Institute for Strategic Studies (IISS)**

The Military Balance is an authoritative assessment of the military capabilities and defence economics of 171 countries. Detailed A–Z entries list each country's military organisation, personnel numbers, equipment inventories, and relevant economic and demographic data. Regional and select country analyses cover the major developments affecting defence policy and procurement, and defence economics. The opening graphics section displays notable defence statistics, while additional data sets detail selected arms orders and military exercises, as well as comparative defence expenditure and personnel numbers.
