Territorializing Manchuria: The Transnational Frontier and Literatures of East Asia

Xie, Miya Qiong

Harvard East Asian Monographs, 458 / Harvard University, Asia Center (Harvard U.P.)

2023 : 03 400 p. Hardback 9780674278301 US\$65.00

Xiao Hong, Yom Sang-sop, Abe Kobo, and Zhong Lihe - these iconic literary figures from China, Korea, Japan, and Taiwan all described Manchuria extensively in their literary works. Now China's Northeast - but a contested frontier in the first half of the twentieth century - Manchuria has inspired writers from all over East Asia to claim it as their own, employing novel themes and forms for engaging nation and empire in modern literature. Many of these works have been canonized as quintessential examples of national or nationalist literature - even though they also problematize the imagined boundedness and homogeneity of nation and national literature at its core.

Wonder Confronts Certainty: Russian Writers on the Timeless Questions and Why Their Answers Matter

Morson, Gary Saul

(Belknap Pr.)

2023 : 05 464 p. Hardback 9780674971806 US\$37.95

Morson describes the Russian literary tradition as an argument between a radical intelligentsia that uncompromisingly followed ideology down the paths of revolution and violence, and writers who probed ever more deeply into the human condition. The debate concerned what Russians called "the accursed questions": If there is no God, are good and evil merely human constructs? Should we look for life's essence in ordinary or extreme conditions? Are individual minds best understood in terms of an overarching theory or, as Tolstoy thought, by tracing the "tiny alternations of consciousness"? Exploring apologia for bloodshed, Morson adapts Mikhail Bakhtin's concept of the non-alibi - the idea that one cannot escape or displace responsibility for one's actions. And, throughout, Morson isolates a characteristic theme of Russian culture: how the aspiration to relieve profound suffering can lead to either heartfelt empathy or bloodthirsty tyranny.

The Kokinshū: Selected Poems

Duthie, Torquil (trans.)

Translations from the Asian Classics (Columbia U.P.)

2023 : 04 432 p. Hardback 9780231207621 US\$120.00 Paperback 9780231207638 US\$30.00

This book offers an inviting and immersive selection of roughly one-third of the anthology in English translation. Torquil Duthie focuses on rendering the poetic language of the *Kokinshū* as a whole, in such a way that readers can understand and experience how its poems work together to create a literary world. He emphasizes that classical Japanese poems do not stand alone as self-contained artifacts but take part in an ongoing intertextual conversation. Duthie provides translations and interpretations of the two prefaces to the *Kokinshū*, which deeply influenced Japanese literary aesthetics. The book also includes critical essays on various aspects of the anthology and its history.

Annals and Antiquities of Rajast'han. 3 vols

Tod, James & Peabody, Norbert

Royal Asiatic Society (Yale U.P.)

2023 : 06 1644 p. 275 color + b/w illus. Hardback 9780300270525 US\$1000.00

The two volumes of James Tod's *Annals and Antiquities of Rajast'han*, first published in 1829-32, remain to this day the first port of call for anyone interested in the history and culture of Rajasthan and the early colonial encounter in India. Written by the first East India Company official to the region, the text was also seminal for the early figures in India's independence movement who reworked Tod's imagined ancient Rajput national identities into a call for India's national liberation from British colonial rule. Now available in a numbered limited edition of 750 copies, this re-issue of the original text including over 80 original copperplate engravings, woodblock prints, and lithographs returns the text to its original state, while the accompanying companion volume critically reframes this monumental, but often misunderstood, work. The new volume shows how Tod's *Annals* is not merely the product of the singular voice of a Western "orientalist" imagination, instead revealing a richly complex work in which Rajasthani voices provide a "multi-authored" heterogeneity to the text which is often discordant and unpredictable. Re-articulating the variety of voices that simultaneously inhabit Tod's *Annals*, the revised volume argues for a more conjunctural, contingent, and open-ended reading of colonial history.

Best known for his large-scale photographs, carefully constructed "near documentaries" created in collaboration with the subjects, Jeff Wall (b. 1946) is one of the most influential photographers of the late twentieth and early twenty-first centuries. Often displayed as backlit color transparencies, Wall's works have helped define the use of color and painterly sensibilities in contemporary art photography. This volume collects over fifteen years' worth of new work from Jeff Wall in a lavish presentation that includes multiple gatefolds to better convey the scale of Wall's work. As a collection of Wall's most recent work, this volume will include numerous pieces that are as-yet unfamiliar to many of his fans. Chevrier's essay deftly summarizes the varied directions of Wall's recent work and contextualizes them within the body of work that precedes this volume; de Duve's and Company's wide-ranging conversations with the artist cover the role of performance and the effects of spontaneity and scale, respectively.

The River Imp and the Stinky Jewel and Other Tales collects five *kibyōshi* published between 1778 and 1807, chosen for both entertainment value and stylistic variety. Their authors reinvent traditional Japanese monsters as contemporary characters who mirror the foibles of the human world. They tell stories such as: The lover of the long-necked *rokuro-kubi* makes a ridiculous attempt to rescue her from her human captor. A mischievous river creature steals a jewel lodged deep inside a boy's buttocks, setting off a curious chain of events involving a historical samurai and a real-life "fart man." A demon girl from hell is sent to the world of the living in order to destroy a sacred Buddhist statue - but things don't go quite as she plans.

Pearman, Hugh

(Yale U.P.)

2023 : 05 256 p. 154 col. & b/w Hardback 9780300263442 US\$40.00

About Architecture is an engaging introduction to architecture, exploring the ways in which we construct our built environment, and why. Hugh Pearman guides us through the architecture that shapes our lives - from how our towns and cities are organized, to where we live, learn and work, and how we get around, interact with others, and relax. Organized by type - from civic spaces, to homes, offices, and museums - the clear and straightforward structure demystifies the many styles and functions of architecture. Pearman explores how architecture responds to our changing lifestyles and how some buildings evolve or find new uses. He demonstrates that while there is endless variety within each building type, the essence of architecture - the way buildings serve their users - remains surprisingly constant.

Fernwood Publishing (Columbia U.P.)

Scoundrels and Shirkers examines the deep relationship between capitalism and poverty in England since the 12th century. It exposes the dynamics of capitalism, from its origins in the long transition from feudalism to its current crisis under neoliberal capitalism, in producing poverty. The book, unique in the historical breadth of its focus, shows conclusively that poverty is an inevitable consequence of capitalism. In the search for profits and control of society's economic surplus, capitalism expands, adapts and innovates, producing not only commodities and wealth but also, and necessarily, poverty.

Stern, Philip J.

(Belknap Pr.)

2023 : 06 368 p. Hardback 9780674988125 US\$35.00

Across four centuries, from Ireland to India, the Americas to Africa and Australia, British colonialism was above all the business of corporations. Corporations conceived, promoted, financed, and governed overseas expansion, making claims over territory and peoples while ensuring that British and colonial society were invested, quite literally, in their ventures. Colonial companies were also relentlessly controversial, frequently in debt, and prone to failure. The corporation was well-suited to overseas expansion not because it was an inevitable juggernaut but because, like empire itself, it was an elusive contradiction: public and private; person and society; subordinate and autonomous; centralized and diffuse; immortal and precarious; national and cosmopolitan - a legal fiction with very real power.

James, Harold

(Yale U.P.)

2023 : 07 376 p. Hardback 9780300263398 US\$32.50

The eminent economic historian Harold James presents a new perspective on financial crises, dividing them into "good" crises, which ultimately expand markets and globalization, and "bad" crises, which result in a smaller, less prosperous world. Examining seven turning points in financial history - from the depression of the 1840s through the Great Depression of the 1930s to the Covid-19 crisis - James shows how crashes prompted by a lack of supply, like the oil shortages of the 1970s, lead to greater globalization as markets expand and producers innovate to increase supply. By contrast, crises triggered by a lack of demand - such as the Global Financial Crisis of 2007-2008 - result in less globalization as markets contract, austerity measures are imposed, and skepticism of government grows.

Babic, Milan

Comparative Political Economy (Agenda Publishing)

The past two decades have seen a rapid rise in large-scale, state-led transnational investment from countries as different as China, Norway and Russia. By bundling economic resources, these countries have entered global markets through massive state-led investments. This transformation of states into global economic actors is historically unprecedented and presents a major challenge for how states relate to each other in the international system. Milan Babic examines how states have become major corporate owners in the global economy and unpacks the lasting effects of this on our understanding of the state and international politics.

Roe: The History of a National Obsession

Ziegler, Mary

(Yale U.P.)

2023 : 03 248 p. Hardback 9780300266108 US\$27.00

What explains the insistent pull of *Roe v. Wade*? Abortion law expert Mary Ziegler argues that the U.S. Supreme Court decision, which decriminalized abortion in 1973 and was overturned in 2022, had a hold on us that was not simply the result of polarized abortion politics. Rather, *Roe* took on meanings far beyond its original purpose of protecting the privacy of the doctor-patient relationship. It forced us to confront questions about sexual violence, judicial activism and restraint, racial justice, religious liberty, the role of science in politics, and much more. In this history of what the Supreme Court's best-known decision has meant, Ziegler identifies the inconsistencies and unsettled issues in our abortion politics. She urges us to rediscover the nuance that has long resided where we would least expect to find it - in the meaning of *Roe* itself.

This book presents an account of British conservatism which avoids the usual confusion between the ideology and the stated principles of a party which prides itself on an ability to change its views according to circumstances. It shows, since the Tory Party adopted the name "Conservative" in the 1830s it has become increasingly difficult to associate its varying positions with a coherent "conservative" position, so that it is more profitable to discuss its ideological history from the perspective of liberalism and nationalism. This argument is presented by tracing the histories of the party and the ideology in separate chapters, whose themes and cast of characters rarely coincide.

McDaniel, Sean

Building Progressive Alternatives (Agenda Publishing)

2023 : 02 224 p. Hardback 9781788216050 £65.00

Why has Europe's centre-left failed to respond to the crisis of neoliberalism in Europe? Rather than opening up a moment in political time for the centre-left to puncture the dominance of neoliberalism, the multitude of crises in Europe since 2008 have consolidated its difficulties and contributed to the rise of radical and populist alternatives. *Divided They Fell* examines the failures of mainstream politics, and in particular the inability of the centre-left to respond to the global financial crisis more effectively. By exploring the cases of the UK Labour Party and France's Parti Socialiste, the book investigates the role of, and interplay between, institutional intra-party dynamics, the parties' ideational landscapes and the wider political economy in shaping their responses to the crisis.

Henaway, Mostafa

Fernwood Publishing (Columbia U.P.)

As globalization intensifies, workers everywhere are forced to compete for wages - not through foreign investment and outsourcing, but through an increasingly mobile working class. Henaway rejects the dominant responses of restricting or "managing" migration through temporary worker programs, proposing that stopping a race to the bottom for all working people involves building solidarity with migrant worker struggles for decent work and justice. Through examining the organizing strategies of migrant workers at giants like Amazon and Walmart as well as discount retailers like Dollarama and Sports Direct, the immense power and agency of precarious workers in global companies like UBER or Airbnb, the successful resistance of taxi drivers or fast food workers around the world, and the contemporary mass labour movement organized by new unions and workers' centres, Henaway shows how migrant demands and strategies can help shape radical working class politics.

As a close aide to Michel Barnier, Stefaan De Rynck had a front row seat in the Brexit negotiations. In this frank and uncompromising account, De Rynck tells the EU's side of the story and seeks to dispel some of the myths and spin that have become indelibly linked to the Brexit process. From the mood in the room to the technical discussions, he gives an unvarnished account of the deliberations and obstacles that shaped the final deal. De Rynck demonstrates how the EU-27's unity held firm throughout, while the UK vacillated, changed negotiators, changed prime ministers and changed their aims and tactics. Attempts by the UK to run down the clock and issue ultimatums to force the EU to acquiesce are shown to have had no effect on the course of events. Instead Barnier's team was successful in protecting EU interests, in fulfilling the mandate defined by 27 national governments while still agreeing different forms of Brexit with two UK prime ministers.

2023 : 05 224 p. Hardback 9781788215541 £70.00 Paperback 9781788215558 £24.99

Robert Walker provides a critical examination of the promise and reality of SDG1, the United Nations' Social Development Goal designed, among other things, to eradicate extreme poverty by 2030. The author's message is stark: there is little chance of success. Although the need for a collective and coordinated response is clear, global and national systems of governance are currently incapable of an adequate response. While the critique is formidable, the book seeks to identify reforms necessary to meaningfully increase the likelihood of meeting SDG1's goals. These include reshaping international institutions so that they give greater voice to governments in the developing world, facilitating enhanced modes of participatory governance, and increasing democratic accountability at a global level. Evidence is drawn throughout from a systematic review of international best practice supplemented by more detailed strategic case-studies, including from China.

Richey also expertly underscores the outsized role that government has played in promoting and sustaining this tradition's formidable influence. This second, revised and expanded edition incorporates analysis of Confucianism's impact on how East Asian societies have responded to recent events such as the global coronavirus epidemic, the Summer Olympics in Tokyo, and recent legal developments and social media trends.

Global Philosophy (Equinox)

2023 : 04 Hardback 9781800502697 £75.00 Paperback 9781800502703 £22.95

This introductory text points to some of the diverse tapestries of Hindu worldviews where scriptural revelation, logical argumentation, embodied affectivity, moral reasoning, and aesthetic cultivation constitute densely interwoven conceptual threads. It begins with an exploration of some classical iterations of the quest for a fundamental ontology amidst the diversities of the everyday world. This quest is often embedded in both a diagnosis of the human condition as structured by suffering and a therapy for recovery from worldly fragmentation. A crucial aspect of this therapeutic structure is the analysis of the means of knowledge and the categories of reality, since in order to know the nature of the world one must proceed along truth-tracking routes. Such dynamic mind-world encounters are mediated through language, and Hindu philosophical texts extensively discuss the motif of whether or not deep reality can be comprehended through linguistic structures.

This is the first comprehensive study of the dynamic and often contentious relationship between migrations and border controls in US-occupied Japan, Korea, and the Ryukyus, examining the American interlude in Northeast Asia as a closely integrated, regional history. The extent of cooperation and coordination among American occupiers, as well as their competing jurisdictions and interests, determined the mixed outcome of using repatriation and deportation as expedient tools for dismantling the Japanese empire. The heightening Cold War and deepening collaboration between the occupiers and local authorities coproduced stringent migration laws, generating new problems of how to distinguish South Koreans from North Koreans and "Ryukyuan" from Japanese.

(Harvard U.P.)

2023 : 03 544 p. Hardback 9780674275607 US\$39.95

It might be the most famous journey in the history of political thought: in 1831, Alexis de Tocqueville sailed from France to the United States, spent nine months touring and observing the political culture of the fledgling republic, and produced the classic *Democracy in America*. But the United States was just one of the many places documented by the inveterate traveler. Jeremy Jennings follows Tocqueville's voyages - by sailing ship, stagecoach, horseback, train, and foot - across Europe, North Africa, and of course North America. Along the way, Jennings reveals underappreciated aspects of Tocqueville's character and sheds new light on the depth and range of his political and cultural commentary.

Peter Dorey offers a lively analysis of how Thatcherism became an ideology for politics to conjure with, its relationship with its eponymous leader and with the Conservative Party, as well as the long-term implications for the British people. He argues that the radical modernization of Britain that started under Thatcher's leadership in the 1980s has created the conditions that have led to the polarization of British society today; a process that was profoundly unconservative in its values and approach, destabilizing institutions which Conservatives once deemed sacrosanct, and replacing continuity and solidity with constant change and competition.

Fascism and Genocide: Russia's War Against Ukrainians

Kuzio, Taras & Jajeczyk-Kelman, Stefan

Ukrainian Voices (Ibidem Pr.)

2023 : 01 350 p. Paperback 9783838217918 US\$40.00

This book details how Russia's February 2022 open invasion of Ukraine has led to the biggest military conflagration and refugee crisis in Europe since World War II - a development with global ramifications. Co-written by a leading Western political expert, with three decades of research on contemporary Ukraine, and a prolific British journalist, the book explains why Russian President Vladimir Putin has been long obsessed with Ukraine and how his reliance on dated nationalist myths as well as anti-Western xenophobia led him to miscalculate Ukrainian and Western reactions to his brazen aggression against a sovereign country and founding member of the United Nations since 1945.

Zhadan, Serhiy; Costigan-Humes, Reilly & Wheeler, Isaac / Stackhouse (trans.)

The Margellos World Republic of Letters (Yale U.P.)

2023 : 05 208 p. Hardback 9780300270860 US\$26.00

When Russia invaded Ukraine on February 24, 2022, Serhiy Zhadan took to social media to coordinate a network of resistance workers and send messages of courage to his fellow Ukrainians. What began as a local organizing effort exploded onto the international stage as readers around the globe looked to Zhadan as a key eyewitness documenting Russian atrocities. In this powerful record of the war's harrowing first four months, Zhadan works day and night in Kharkiv to evacuate children and the elderly from suburbs that have come under fire. He sends lists of life-saving medications to the West in the hopes of procuring them for civilians, coordinates food deliveries, collects money for military equipment, and organizes concerts. He shares photographs of the open sky - grateful for every pause in the shelling - and captures images of beloved institutions reduced to rubble. We'll restore everything. We'll rebuild everything, he writes.

The Sounds of Mandarin: Learning to Speak a National Language in China and Taiwan, 1913-1960

Chen, Janet Y.

(Columbia U.P.)

2023 : 07 424 p. Hardback 9780231209021 US\$140.00 Paperback 9780231209038 US\$35.00

This book traces the surprising social history of China's spoken standard, from its creation as the national language of the early Republic in 1913 to its journey into postwar Taiwan to its reconfiguration as the common language of the People's Republic after 1949. Janet Y. Chen examines the process of linguistic change from multiple perspectives, emphasizing the experiences of ordinary people. After the fall of the Qing dynasty, a chorus of influential elites promoted the goal of a strong China speaking in one unified voice. Chen explores how this vision fared in practice, showing the complexities of transforming an ideological aspiration into spoken reality. She tracks linguistic change in schools, rural areas, and urban life against the backdrop of war and revolution.

Women in Japanese Studies: Memoirs from a Trailblazing Generation

Freedman, Alisa

Asia Past & Present (Assoc. Asian Studies)

2023 : 03 360 p. Paperback 9781952636387 US\$25.00

Most books present research and pedagogies. We do something different: We share lives - personal stories of how women scholars earned graduate degrees and began careers bridging Japan and North America between the 1950s and 1980 and balanced professional and personal responsibilities. We challenge the common narrative that Japanese Studies was established by men who worked for the US military after World War II or were from missionary families in Japan. This is only part of the story - the field was also created by women who took advantage of postwar opportunities for studying Japan. Women of this generation were among the first scholars to use Japanese source materials in research published in English and the first foreigners to study at Japanese universities.

When Temple University Japan (TUJ) was founded in 1982 - to advance the mission of international higher education - the university had few ties to Japan, or any other Asian country. However, more than 40 years later, TUJ has overcome substantial obstacles and remains the only American university campus in Japan, gaining legitimacy and considerable respect as an international institution of higher education. In *The History of Temple University Japan*, two former TUJ Deans, Richard Joslyn and Bruce Stronach, explore the creation, development, and maturation of TUJ, and present a case study of how Temple University successfully created an overseas branch campus.

『山口県の地酒との出会い』は、英語圏では今までにないようなユニークな一冊です。本書は全国の日本酒の紹介ではなく、1つの産地—山口県—を深く掘り下げ、その産地のおいしいお酒を造り出す人・風景・文化などを取りあげています。著者 Jim Rion が、山口県の全酒蔵 24 蔵（現在製造していない蔵 1 件を含む）を訪れ、日本酒造りにたずさわる方々の話を聞いてまとめています。各蔵の個性や、蔵元お薦めの 1 本、そして米農家や酒器の陶芸家も紹介しながら、日本酒に関する豆知識や旅行者向けミニ観光ガイド等も収録しています。

Brewing in Yamaguchi - in southern Honshu, Japan - reflects the whole history of sake in Japan, from boom to bust to resurgence, and many of its brands, including the fabled Dassai, are now at izakaya and fine restaurants around the world. Expert Jim Rion takes us on a tour of all 23 Yamaguchi breweries to introduce the character of each and its brewmasters' best picks. Along the way he provides background on such topics as rice farmers, drinkware, brewing methods, and the controversy over sake "terroir" (does it exist?). An added bonus for travelers is a mini sightseeing guide to the region and its many delights. Illustrated with photographs and quick-reference sake labels.

The Global Japanese Restaurant: Mobilities, Imaginaries, and Politics

Hess, Christian / Farrer, James & Wank, David L. (ed.)

Food in Asia and the Pacific (Univ. of Hawaii Pr.)

2023 : 05 277 p. Hardback 9780824894269 US\$80.00 Paperback 9780824895143 US\$28.00

The Global Japanese Restaurant: Mobilities, Imaginaries, and Politics uses an innovative global perspective and rich ethnographic data on six continents to fashion a comprehensive account of the creation and reception of the "global Japanese restaurant" in the modern world. Drawing heavily on untapped primary sources in multiple languages, this book centers on the stories of Japanese migrants in the first half of the twentieth century, and then on non-Japanese chefs and restaurateurs from Asia, Africa, Europe, Australasia, and the Americas whose mobilities, since the mid-1900s, who have been reshaping and spreading Japanese cuisine. The narrative covers a century and a half of transnational mobilities, global imaginaries, and culinary politics at different scales. It shifts the spotlight of Japanese culinary globalization from the "West" to refocus the story on Japan's East Asian neighbors and highlights the growing role of non-Japanese actors (chefs, restaurateurs, suppliers, corporations, service staff) since the 1980s.

The World of Sugar: How the Sweet Stuff Transformed Our Politics, Health, and Environment over 2,000 Years

Bosma, Ulbe

(Belknap Pr.)

2023 : 05 416 p. Hardback 9780674279391 US\$35.00

The World of Sugar begins with the earliest evidence of sugar production. Through the Middle Ages, traders brought small quantities of the precious white crystals to rajahs, emperors, and caliphs. But after sugar crossed the Mediterranean to Europe, where cane could not be cultivated, demand spawned a brutal quest for supply. European cravings were satisfied by enslaved labor; two-thirds of the 12.5 million Africans taken across the Atlantic were destined for sugar plantations. By the twentieth century, sugar was a major source of calories in diets across Europe and North America.

Genealogy and Status: Hereditary Office Holding and Kinship in North China under Mongol Rule

Harvard-Yenching Institute Monograph Series / Harvard University, Asia Center (Harvard U.P.)

2023 : 02 388 p. Hardback 9780674291294 US\$60.00

By shedding light on a long-forgotten epigraphic genre that flourished in North China during the Mongol Empire, or Yuan Dynasty (1271-1368), *Genealogy and Status* explores the ways the conquered Chinese people understood and represented the alien Mongol ruling principles through their own cultural tradition. This epigraphic genre, which this book collectively calls “genealogical steles,” was quite unique in the history of Chinese epigraphy.
